Each trimester has 8-12 lectures and 10 essays (1 per student); Students will be assigned 5 cases to review, write up and report on. They must attend all case conference sessions. Students must comment on at least 5 of the GRQ essays and submit a file which contains a brief comment on each case being presented each week at the case conference sessions. Students must write up a homework assignment (two fully elaborated cases with outcomes from their own practices). Across the 3 trimester we will cover 135 cases!
